

## ARCHAEOLOGICAL INVESTIGATIONS IN A NORTHERN ALBANIAN PROVINCE: RESULTS OF THE PROJEKTI ARKEOLOGJIK I SHKODRËS (PASH) VOLUMES 1 & 2

Edited by Michael L. Galaty & Lorenc Bejko

This two volume set presents the results of a collaborative Albanian-American project that operated in northern Albania from 2010-2016. Combining various methods, including intensive survey and test excavations, PASH sought to address the origins of social inequality, through time, in a little-known but historically-important western Balkan region. Volume 1 presents the results of survey and excavations, while Volume 2 presents artifacts and artifact analysis. The volumes are accompanied by and linked to an online, open-access archive, managed in the University of Michigan's Deep Blue Data repository.

**Michael L. Galaty** is the director of the University of Michigan Museum of Anthropological Archaeology, curator of European and Mediterranean Archaeology at the Museum, and a professor of anthropology and classical studies. He has conducted field research in Albania, Greece, and Kosova. His previous works include *Memory and Nation Building: From Ancient Times to the Islamic State* and *Light and Shadow: Isolation and Interaction in the Shala Valley of Northern Albania*.

**Lorenc Bejko** is chair of the Department of Archaeology and Cultural Heritage at the University of Tirana, Albania and senior cultural heritage advisor to the Trans-Adriatic Pipeline (TAP) project. He has conducted field research at numerous sites throughout Albania. His previous works include *The Excavation of the Prehistoric Burial Tumulus at Lofkënd, Albania* and *New Directions in Albanian Archaeology*.
