Justice and Faith

The Frank Murphy Story

By Greg Zipes

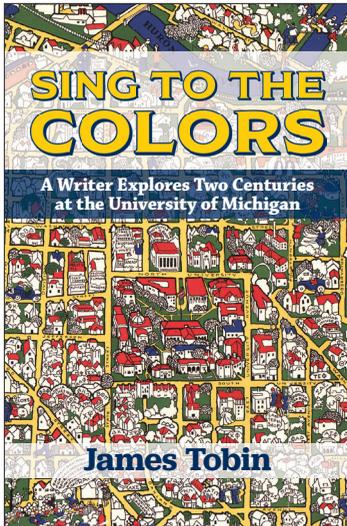

2021 | 6x9 | 352pp | 15 b&w photos
Paper \$39.95 | 978-0-472-03853-4

Frank Murphy was a Michigan man unafraid to speak truth to power. He rose from a small town on the shores of Lake Huron to become Mayor of Detroit, Governor of Michigan, and finally a Supreme Court Justice. One of the most important politicians in Michigan's history, Murphy was known for his passionate defense of the common man, earning him the pun "tempering justice with Murphy."

Despite being a loyal ally of Franklin Delano Roosevelt, when FDR ordered the removal of Japanese Americans during World War II, Supreme Court Justice Murphy condemned the policy as "racist" in a scathing dissent to the *Korematsu v. United States* decision. Every American, whether arriving by first class or in chains in the galley of a slave ship, fell under Murphy's definition of those entitled to the full benefits of the American dream.

Justice and Faith explores Murphy's life and times by incorporating troves of archive materials not available to previous biographers, including local newspaper records from across the country. Frank Murphy is proof that even in dark times, the United States has extraordinary resilience and an ability to produce leaders of morality and courage.

Greg Zipes is an attorney and Adjunct Assistant Professor in the School of Professional Studies at New York University.

Sing to the Colors

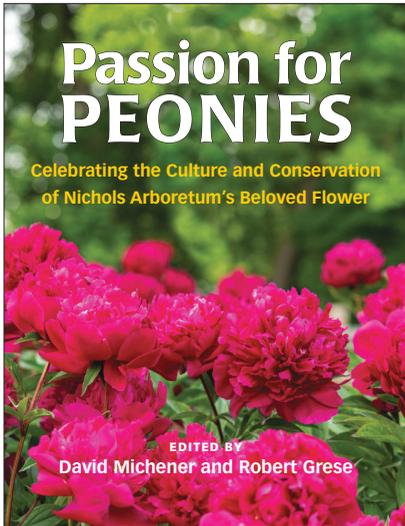

A Writer Explores Two Centuries at Michigan

By James Tobin

2021 | 6x9 | 248pp | b&w photos
Paper | \$24.95 | 978-0-472-03857-2

In *Sing to the Colors*, award-winning author James Tobin considers ideas of place, tradition, legacy, and pride while investigating two centuries of history at his alma mater, the University of Michigan. The book's 24 essays capture a series of moments—some well-known and celebrated, others inconspicuous or even troubling—that have contributed to the ongoing project of the University. Readers travel back to bitter battles fought over the vision for the University in its early years and learn how the Diag and other campus landmarks came to be. Other chapters consider milestones on the University's continuing journey toward greater inclusivity such as the 1970 Black Action Movement strike and the enrollment of Michigan's first female students in the 1870s. Still others illuminate the complex relationship between the University and the city of Ann Arbor, revisiting former mainstays like the Pretzel Bell and Drake's Sandwich Shop. Alongside these stories, Tobin grapples with his own understanding of and connection to Michigan's history, which—whatever its imperfections and errors—has shaped the lives of thousands of alumni around the world. This is a book for readers who not only cherish the University of Michigan but who also want to better understand the long work of the many generations who envisioned and built and sustained the place.

James Tobin teaches literary journalism and narrative history in the Department of Media, Journalism, and Film at Miami University in Oxford, OH. He earned his Ph.D. in history at the University of Michigan and worked for 12 years as a reporter for *The Detroit News*. He is author of several books, including *Ernie Pyle's War*, which won the National Book Critics Circle Award.

Passion for Peonies

*Celebrating the Culture and Conservation
of Nichols Arboretum's Beloved Flower*

Edited by David Michener and Robert Grese

2020 | 8.5x11 | 152pp | color photos

Paper \$24.95 | 9780472037803

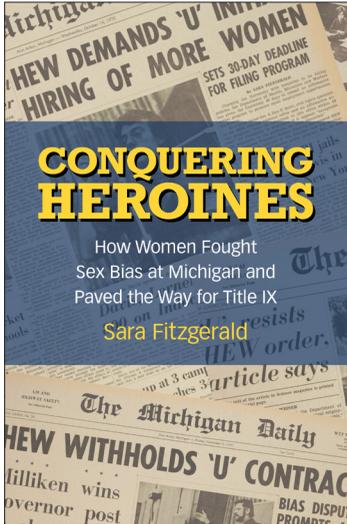

Peonies are a favorite flower everywhere they can be cultivated and for good reason: their heady fragrances and enchanting colors create an immersive experience that has enamored generations of garden lovers. This passion is on full display each June at the Peony Garden of the University of Michigan's Nichols Arboretum.

Originally planted in 1922, the Nichols Arboretum Peony Garden now boasts North America's largest public collection of heirloom herbaceous peonies. The Garden has become a sacred space for the Ann Arbor community, and the rather short period of peak bloom—about two fleeting weeks each year—only seems to intensify its appeal, drawing thousands of visitors annually to this spectacular “living museum” on campus.

Illustrated with hundreds of striking color photos, *Passion for Peonies* collects essays that celebrate the story of the Nichols Arboretum Peony Garden as well as the rich social history of peony gardening. Together these pieces comprise a love letter both to a magical public space at the University of Michigan and to the history and culture of peony gardening.

David Michener has curated the peony garden at the University of Michigan's Nichols Arboretum since 1990. He is co-author (with Carol A. Adelman) of *Peony: The Best Varieties for Your Garden*.

Robert Grese is Theodore Roosevelt Chair of Ecosystem Management in the School for Environment and Sustainability at the University of Michigan as well as Director of the Matthaei Botanical Gardens and Nichols Arboretum.

Conquering Heroines

How Women Fought Sex Bias at Michigan and Paved the way for Title IX

Sara Fitzgerald

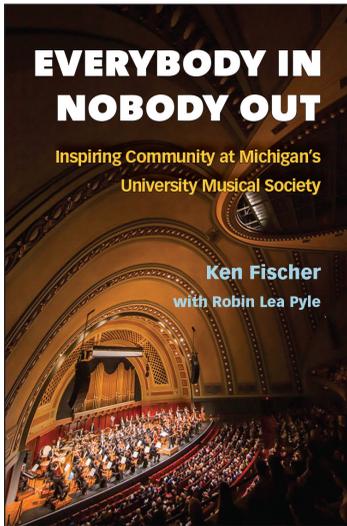

2020 | 6x9 | 344pp |
Paper \$29.95 | 9780472037889

In 1970, a small group of women in Ann Arbor launched a crusade—compel the University of Michigan to treat women the same as men. At the time, sex discrimination was rampant at the UM. The admissions office maintained quotas of 55% male undergraduate entrants, turning away more qualified female applicants. Women comprised under five percent of the University’s professors, and the prospect of promotion was almost nonexistent. As one administrator put it at the time, “Men have better use for the extra money.”

Galvanized by their shared experiences with sex discrimination, the Ann Arbor women organized a coalition named FOCUS on Equal Employment for Women. Led by activist Jean Ledwith King, FOCUS filed a complaint with the U.S. Department of Labor, arguing that the University, which served as a government contractor, was in breach of laws prohibiting job discrimination by federal employers. Within months, the Department of Health, Education, and Welfare turned up egregious examples of discrimination in Michigan’s practices toward women and threatened to withhold millions of dollars in contracts until remedies had been adopted. A revolution in academic hiring practices had begun and would reverberate across the country.

Drawing on oral histories from archives as well as new interviews with living participants, *Conquering Heroines* chronicles the suspenseful standoff between FOCUS and UM administrators.

Sara Fitzgerald is a former editor and new-media developer for the *Washington Post* and was the first woman to serve as editor-in-chief of *The Michigan Daily*. She is the author of *Rumors* (Warner Books, 1992) and *Elly Peterson: “Mother” of the Moderates* (University of Michigan Press, 2012).

Everybody In, Nobody Out

*Inspiring Community at Michigan's
University Musical Society*

Ken Fischer with Robin Lea Pyle

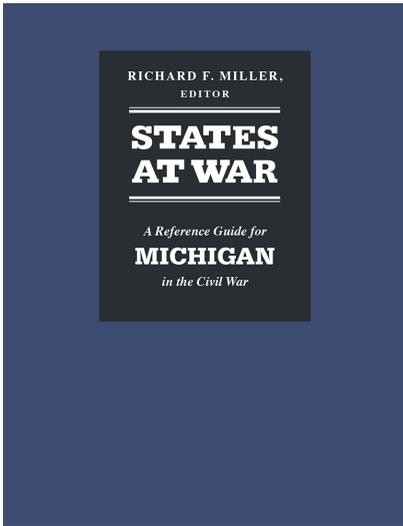

2020 | 6x9 | 240pp | 40 color photos
Hardcover \$29.95 | 9780472132027

Housed on the campus of the University of Michigan in Ann Arbor, University Musical Society is one of the oldest performing arts presenters in the country. A past recipient of the National Medal of Arts, the nation's highest public artistic honor, UMS connects audiences with wide-ranging performances in music, dance, and theater each season.

Between 1987 and 2017, UMS was led by Ken Fischer, who pursued an ambitious campaign to expand and diversify the organization's programming and audiences—inspired by Fischer's overarching philosophy toward promoting the arts, "Everybody In, Nobody Out." The approach not only deepened UMS's engagement with the University and southeast Michigan communities, it led to exemplary partnerships with distinguished artists across the world. Under Fischer's leadership, UMS hosted numerous breakthrough performances, including Vienna Philharmonic's final tour with Leonard Bernstein, appearances by then relatively unknown opera singer Cecilia Bartoli, a multi-year partnership with the Royal Shakespeare Company, and dozens of events featuring legendary artists such as Yo-Yo Ma, Wynton Marsalis, and The King's Singers.

Though peppered with colorful anecdotes of how these successes came to be, this book is a reflection on the power of the performing arts to engage and enrich communities—not by handing down cultural enrichment from on high, but by meeting communities where they live and helping them preserve cultural heritage, incubate talent, and find ways to make community voices heard.

Ken Fischer served as President of the University Musical Society for thirty years until his retirement in 2017. In 2019, he was awarded an honorary doctorate of fine arts from the University of Michigan.

States at War

A Reference Guide for Michigan in the Civil War

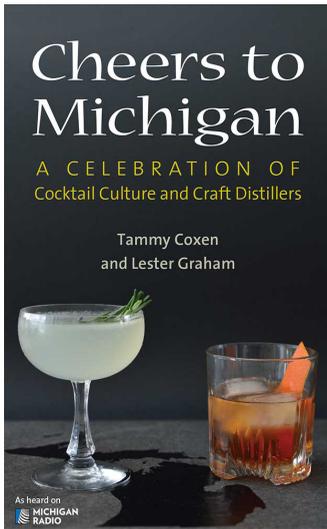

Richard F. Miller

2020 | 8.5x11 | 312pp | 1 map

Hardcover \$120 | 9780472131457

Unlike most books about the Civil War, which deal with individual battles or the war at the national level, *States at War: A Reference Guide for Michigan in the Civil War* chronicles the actions of an individual state government and its citizenry coping with the War and its ramifications, from transformed race relations and gender roles, to the suspension of habeas corpus, to the deaths of over 10,000 Michigan fathers, husbands, sons, and brothers who'd been in action. The book compiles primary source material—including official reports, legislative journals, executive speeches, special orders, and regional newspapers—to provide an exhaustive record of the important roles Michigan and Michiganders had in the War. Though not burdened by marching armies or military occupation like some states to the southeast, Michigan nevertheless had a fascinating Civil War experience that was filled with acute economic anxieties, intense political divisions, and vital contributions on the battlefield. This comprehensive volume will be the essential starting point for all future research into Michigan's Civil War era history.

Richard F. Miller is a Fellow of the Massachusetts Historical Society and the Former Director of *New England Quarterly*. He is the author of the six previous volumes of *States at War*.

Great Lakes Rocks

4 Billion Years of Geologic History in the Great Lakes Region

Stephen E. Kesler

Great Lakes Rocks takes readers on this fascinating journey through geologic history, beginning with an investigation of the surface features—the hills and valleys, waterfalls and caves, and the Great Lakes themselves—that we encounter on a daily basis. From there the book digs deeper into the past, and readers learn about the amazing techniques geologists have used to reconstruct the events that shaped this region millions and even billions of years before humans set foot on Earth. Written for nonspecialist readers, this book provides a detailed but easy-to-follow introduction to the geology of the Great Lakes region, and it is an ideal fit for introductory geology courses, including those aimed at nonscience majors.

Imagining the Forest

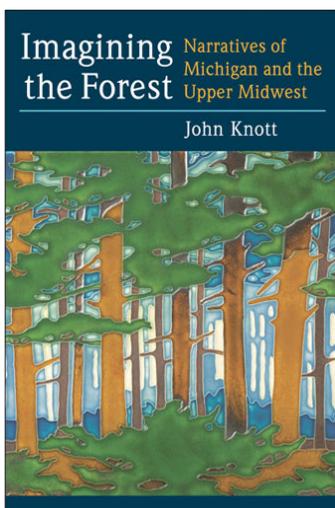

Narratives of Michigan and the Upper Midwest

John Knott

The forests in Michigan played a role in the American cultural imagination from the beginnings of European settlement to the present and people have invested in both their moral and spiritual meanings. John Knott draws upon historical and contemporary writing set in the Upper Peninsula to show two competing metaphors that evolved over time: the forest as howling wilderness, impeding the progress of civilization and in need of subjugation, and the forest as temple or cathedral, worthy of reverence and protection.

The Cedarville Conspiracy

Indicting U.S. Steel

L. Stephen Cox

On the morning of May 7, 1965, the American freighter Cedarville collided with the Norwegian vessel Topdalsfjord in heavy fog in the Straits of Mackinac. As the mortally wounded Cedarville began to list and sink, U.S. Steel refused to allow the crew to escape to safety, while the captain secretly donned his life jacket and abandoned the sinking ship. Ultimately, ten crew members of the Cedarville died and a legal battle ensued implicating the owner U.S. Steel—the company that owned the Cedarville—in the chain of events leading to the tragedy. This is the first Great Lakes history to expose the heroism, villainy, courage, and confusion surrounding the Cedarville disaster.

Rites of Conquest

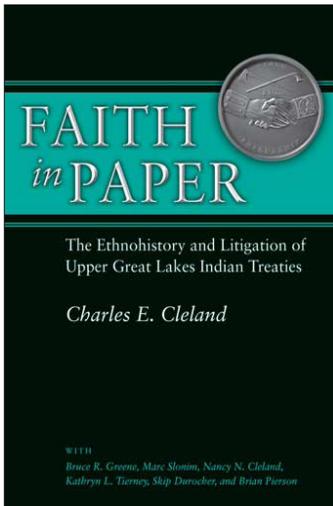

The History and Culture of Michigan's Native Americans

Charles E. Cleland

For many thousands of years before the arrival of Europeans, Michigan's native peoples, the Anishnabeg, thrived in the forests and along the shores of the Great Lakes in delicate social balance and in economic harmony with the natural order. *Rites of Conquest* details the struggles of the Ojibwa, Ottawa, and Potawatomi to solve problems that are a legacy of their past, while they attempt to maintain a distinctive place within modern society. In facing this challenge they often turn to the values and traditions that set them apart as the most enduring peoples of the Great Lakes region.

The Indians of Hungry Hollow

Bill Dunlop, Ottawa,

and Marcia Fountain-Blackledge, Chippewa

2005 MICHIGAN NOTABLE BOOK

These are stories of survival, community, sharing, and caring. The situations are often dire: winter in the middle of the Depression; an Indian settlement illegally taken from its inhabitants and set on fire; boaters stranded by bad weather and threatened with death. But if the situations are extreme, the telling of the stories is consistently optimistic yet completely without self-pity or sentimentality, and the characters always find a way through the darkness.

Detroit is No Dry Bones

The Eternal City of the Industrial Age

Camilo José Vergara

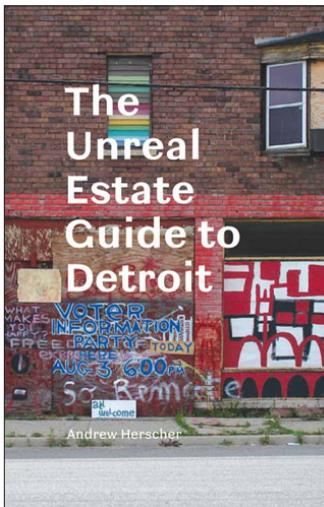

Camilo José Vergara has traveled annually to Detroit to document not only the city's precipitous decline but also how its residents have survived. *Detroit Is No Dry Bones* provides unique documentation of the revival and its urbanistic possibilities. Beyond the fate of the city's buildings themselves, Vergara's camera has consistently sought to capture the lives and resilience

of Detroit's people. Vergara is unique in his documentation of local churches that have re-occupied old bank buildings and other impressive structures from the past and turned them into something unexpectedly powerful architecturally as well as spiritually.

"Vergara is especially alert to changes in the urban landscape . . . perhaps more people will take a second, closer look at the wealth of native folk art we have all over town. And Vergara deserves thanks for recording them and offering a serious critical appraisal."

The Unreal Estate Guide to Detroit

Andrew Herscher

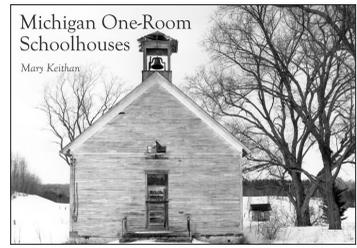

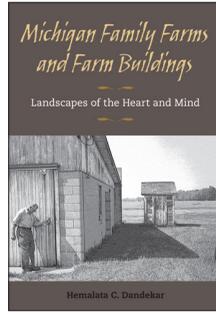

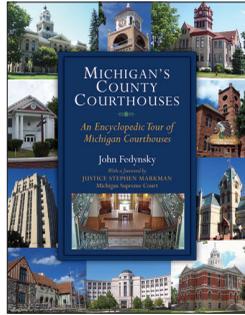

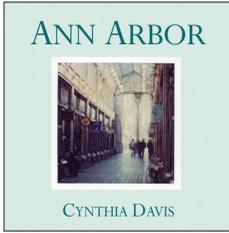

2014 UNIVERSITY OF MICHIGAN PRESS BOOK AWARD

Intense attention has been paid to Detroit as a site of urban crisis. *The Unreal Estate Guide to Detroit* initiates a new focus on Detroit as a site not only of urban crisis but also of urban possibility. The Guide documents art and curatorial practices, community and guerilla gardens, urban farming and forestry, cultural platforms, living archives, evangelical missions, temporary public spaces, intentional communities, furtive monuments, outsider architecture, and other work made possible by the ready availability of urban space in Detroit. The Guide poses these spaces as "unreal estate": urban territory that has slipped through the free-market economy and entered other regimes of value, other contexts of meaning, and other systems of use. The appropriation of this territory in Detroit offers new perspectives on what a city is and can be, especially in a time of urban crisis.
