

David McCall Johnston

David McCall Johnston lives his art. He and his family reside in a fully restored 1840 Greek Revival farm house, filled with antiques and folk art of the period. Just minutes from a city known more for its heavy industry than its rural roots, they have established their own small oasis of pastoral tranquility. This atmosphere is reflected in his work where family members, pets, and personally treasured antiques can be spotted. Over the past 30 years David McCall Johnston's signature Americana style has crossed oceanic borders to achieve international recognition. An honors graduate of Art Center College of Design in Pasadena, California, David has accumulated numerous accolades and honors throughout his prolific career.
