| Acknowledgments

I would like to thank some of the many people who have assisted me in producing this book. Curtis Bradford, Tim Brook, Garvin Davenport, Ingrid Erickson, and Marcia LaBrenz gave inspiration and assistance in selecting and editing the readings. The anonymous readers provided helpful comments about both the scope and the details of the project. Students, especially Daniel Seals and Evereth Aldana, provided suggestions on earlier versions of some of the readings. Robert Wilson of the Spatial Sciences Research Center at Indiana University of Pennsylvania created the map of Guangxi. Jason and Rachel provided innumerable insights about all sorts of things. My wife, Shari, provided invaluable assistance in assembling this book, which is only one of the many things for which I am grateful to her.
