The net royalty income from the sale of this book is being donated to the United Nations Foundation, to be used to support water as a resource for the Earth and for its inhabitants, now and for future generations. The United Nations Foundation has created the “Water Music Fund of the United Nations Foundation” for all donated revenue from book sales, as well as for donations to the fund from other sources. In the awarding of all of its grants, the foundation encourages the United Nations to work in partnership with non-governmental organizations. The foundation expects that a variety of non-governmental organizations, both international and local, will work in partnership with the United Nations in the implementation of these water programs.
