

Index

Pages numbers followed by f indicates figure; t indicates table

- academic skill development, 60t; analytical, 112, 125–126; categorization, 103–105, 121, 125–126; classification, 103–105, 121, 125–126; compare and contrast, 63–65, 121, 125–126; conclusion making, 126–127; definitions, 103–105; evaluation, 105–108; explanation, 105–108; objectivity, 123; problem solving, 70–71, 73–74; sequencing, 73–74, 100, 102, 123–124; subjectivity, 123; summarization skills, 108–111
- academic thinking: Bloom’s Taxonomy, 38–39, 55, 98; categories, 60t; classroom activities, 100t; content-based approach, 59–60; importance for secondary education, 99–100; as learning component, 37–39; and MALP, 54–56; pragmatic knowledge compared, 19–20, 29–31, 37–39; project-based learning, 93, 95; SLIFE difficulty with, 18–20, 40; survey projects, 114–115, 118, 123–124; using technology, 108–111
- accessibility in learning, 66, 74–75
- accountability in learning: examples, 65, 72; as learning component, 33–35, 40; and MALP, 53; project-based learning, 90–92, 94; survey projects, 116
- activities in learning: categories, 60t; as learning component, 28, 37–40; and MALP, 54–56; pragmatic, 37–38; project-based learning, 93
- analytical skills, 112, 125–126
- assessments, standardized, 7–8
- Bloom’s Taxonomy, 39, 55, 98
- bookmarking activity, 62–63, 108–111
- brainstorming for projects, 93–94
- calendars, classroom use of, 101–102
- categorization as an academic skill, 60t, 103–105, 121, 125–126
- checklists, MALP: about, 67; applications of, 71–75, 76f, 77f; benefits, 133; template, 68f
- classification as an academic skill, 60t, 103–105, 108–111, 125–126
- classroom management, 6, 44–48, 85
- closed-ended questions, 120–123
- collaborative learning. *See* project-based learning
- collectivism: as aspect of culture, 13–17; impact on learning, 21–22, 29–32, 34
- communication, two-way, 45–46
- compare and contrast as an academic skill, 60t, 63–65, 103–105, 125–126
- conclusions as an academic skill, 126–127
- conditions for learning: as learning component, 28, 29–32, 40, 49; and MALP, 50–53; project-based learning, 89–90; survey projects, 114
- content knowledge: and academic ways of thinking, 55–57, 59–60; project-based learning, 95–97; students lack of, 2; using collections to develop, 103–105
- context-based learning, 39
- cooperative learning, 16, 21–22, 34. *See also* project-based learning
- critical-thinking skills. *See* academic ways of thinking
- cultural dissonance: and classroom management, 43–48; defined, 2–3; effects of, 25–26; and MALP, 56–57, 133–135; as reason for SLIFE failure, 3; and standardized tests, 7–8
- culture: collectivism, 13–17; defined, 11; iceberg model, 12, 21, 28; individualism, 13–17; and pedagogy, 18, 20–22, 44–45
- curriculum: building associations in, 48; and MALP, 5–6, 7; and project-based learning, 95–97
- defining as an academic skill, 103–105
- delicious.com, classroom use of, 62, 109–111
- differentiated instruction, 114
- drop-outs, and SLIFE, 2, 3
- education, Western-style: challenges of SLIFE, 43; cultural assumptions in, 4, 15–18, 20–22; curriculum and MALP, 5; decontextualization, 39–40; formal schemata, 27; learning paradigms, 40t; need for adaptation, 133–134; priorities in, 47–48; student views on, 135–136

- ELLs (English Language Learners): enrollment statistics, 1; helping SLIFE, 6; MALP benefits, 44–45; and standardized testing, 7–8
- English language skills. *See* language skills
- evaluating as an academic skill, 105–108, 109–111
- explaining as an academic skill, 105–108
- Freire, P., 54
- group learning. *See* cooperative learning
- Hall, E., 17
- iceberg model of culture, 12, 21, 28
- independence and learning: cultural aspects, 13–17; as learning component, 29, 31–32, 40; in traditional education, 22
- interconnectedness and learning: autobiographies, 106–108; examples, 64–65, 71–72; as learning component, 29, 31–32, 40; and MALP, 51–53; project-based learning, 89–90; survey projects, 114, 120; timelines, 101–103
- Internet as teaching tool, 62–63, 66, 109–111
- invisible culture, 12
- KWL technique, 118
- language skills, 91–92, 96
- learner-centered learning. *See* project-based learning
- learning paradigms: academic ways of thinking, 38–39, 54–56; accountability, 33–35, 53; activities, 28, 37–40, 54–56; conditions, 28, 29–32, 50–53; independence, 31–32, 33–35; interconnectedness, 31–32, 50, 51–53; oral tradition, 35–37, 54; pragmatic activities, 37, 38; printed-word, 35–37, 54; processes, 28, 33–37, 53–54; relevance, 29–31, 50–51; responsibility, 33–35, 53
- learning tasks. *See* academic ways of thinking
- lesson plans: mathematics, 67, 69–75, 77f, 107; measurements, 67, 69–75; problem solving, 70–71; social studies, 61–67, 76f
- literacy skills: defined, 22–23; role in U.S. education, 37; SLIFE abilities, 2, 22–24, 35–36
- MALP. *See* Mutually Adaptive Learning Paradigm (MALP)
- mathematics: lesson plans, 67, 69–75, 77f; MALP approach, 132–133; traditional approach, 130–132; using life transition exercises, 107
- measurements, teaching about, 67, 69–75
- Meeting the Needs of Students with Limited or Interrupted Schooling*, 2, 9
- Mutually Adaptive Learning Paradigm (MALP): 4, 48–49, 56–57; academic ways of thinking, 54–56; benefits, 4–5, 6–8, 130, 132–134, 135; checklists, 67, 68f, 71–75, 76f, 77f, 133; communication, 45–46; conditions, 50–53; cultural sensitivity and, 43–45, 56–57; curriculum requirements, 5–8; examples, 49; familiar associations, 48; implementation of, 5–8; mixed ability classes, 6–7, 85; priority setting, 47–48; processes, 53–54; and project-based learning, 88–93; standards, 5; testing, 7–8. *See also* teachers
- oral interaction, 86–87
- oral transmission: cultural aspects, 23–24, 35–36, 40t; examples, 73; as learning component, 33, 35–37, 40; and MALP, 54; project-based learning, 90–92; survey projects, 114, 119–125, 127–128
- pedagogy, cultural aspects, 20–22, 44–45
- planning process in project-based learning, 93–95
- pragmatic knowledge: compared to academic ways of thinking, 19–20, 29–31, 37–39; and project-based learning, 89–90
- print-based learning: as learning component, 33, 35–37; and MALP, 54; project-based learning, 90–92; survey projects, 114, 119–125, 127–128
- problem solving as an academic skill, 70–71, 73–74
- processes for learning: as learning component, 28, 33–37, 40, 49; and MALP, 53–54; project-based learning, 90–92; survey projects, 114
- project-based learning: 84–86, 87–88; compared to traditional instruction, 85, 87; components of, 89–93; content knowledge development, 95–97; curriculum related, 95–97; cycle of, 94; examples, 89–90, 91–92; implementing, 93–95; MALP and, 88–93; in mixed ability classrooms, 6, 85; planning process, 93–95, 99; repetition, 85, 97; teacher roles, 85, 88, 96; working with peers, 88
- relevance in learning: examples, 64, 71; as learning component, 29–31, 40; and MALP, 50–51; project-based learning, 89–90, 94; survey projects, 114, 117–118; technology and, 110–111; using autobiographies, 106–108; using timelines, 101–103

- responsibility in learning: examples, 65, 72; as learning component, 33–35, 40; and MALP, 53; project-based learning, 90–92, 94; survey projects, 114
- scaffolding, in the classroom, 63, 66, 101–102, 105; as education concept, 22; need in MALP, 53; in survey work, 123–124, 125–126
- schema theory of learning: as barrier for SLIFE, 60; defined, 27; in MALP, 55–56
- sentence frames: classroom use, 70–71, 88, 101–102, 105; explained, 63; in survey work, 126, 127
- sequence skills, 60t, 73–74, 100–102, 123–124
- shared responsibility in learning. *See* responsibility in learning
- Sheltered Instruction Observation Protocol (SIOP®), 59–60
- SLIFE (Students with Limited or Interrupted Formal Education), 85; characteristics, 4–5, 9; cultural dissonance for, 3, 15–16, 25–26; education challenges, 3, 18–20, 40, 43, 59–60; learning paradigms, 40t, 133–134; listening skills, 86–87; literacy skills, 2, 22–24, 35–36; oral tradition, 20t, 22–23, 25, 35–37; pragmatic knowledge, 19–20, 29–31, 37–40; priorities, 47–48; statistics on, 1–3; views on education, 135–136
- social studies education, 61–67, 76f
- students. *See* ELL; SLIFE
- Students with Limited or Interrupted Formal Education (SLIFE). *See* SLIFE
- summarizing as an academic skill, 98, 108–111
- surveys: educational benefits of, 114–115, 128; examples, 117, 118, 119, 120, 121–123, 126; group vs. individual work, 116; introducing to students, 116–117; KWL technique, 117–118; length, 116; process, 115–116, 117–128; questions, 119–124; teacher’s role, 116
- taxonomy for academic thinking, 38–39, 98
- teachers of SLIFE: adaptability of, 43–45, 130–134; building associations in curriculum, 48; and cooperative learning, 16; cultural assumptions of, 4, 20–22, 28; different cultures views of, 21–22; roles, 44, 85, 88, 90, 93–95, 96, 116; student relationships, 31–32, 44–45, 51–53, 90
- technology skills, 91–92, 108–112
- testing and MALP, 7–8
- timelines as an academic skill, 100–102
- topic selection in survey projects, 117–119
- U.S. education. *See* education, Western-style
- visual aids, value of, 66
- vocabulary development, 88, 96. *See also* language skills
- Western-style education. *See* education, Western-style

Breaking New Ground: Teaching Students with Limited or Interrupted Formal Education in U.S. Secondary Schools
Andrea DeCapua and Helaine W. Marshall
