

## Index

Page numbers followed by f indicates figure; t indicates table

- abbreviations in corpora, 230, 232–233  
abstracts, grant award, 154–169  
academic communities: characteristics, 96–100; discourse language of, 11–12, 103–106, 274; grammar use, 103–108; knowledge continuum, 12f; lexical bundles, 17–18; lingua franca research, 109–111; specificity, 10–12  
Academic Word List (AWL), 199, 234  
AntConc, 264  
applied linguistics: academic writing in, 13t, 14t, 15t, 17–21; grant awards research, 160–165  
applied mathematics grant awards research, 161–165  
*Aspects of Article Introductions* (Swales), 147–148  
assessment in teaching, 59–62, 63f, 67  
attrition of first language, 84–85  
AWL (Academic Word List), 199, 234  
  
backchannelling, 110  
balancedness in corpora, 228–229  
Bank of English (BoE) corpus, 229  
BASE (British Academic Spoken English), 98  
BAWE (British Academic Written English), 224  
behavioral process clauses, 126  
Belcher, D., 1, 198, 203, 244–245  
Benesch, S., 74, 200–201, 203  
Berkenkotter, C., 150–151, 254  
Bhatia, V.K., 10, 121, 123, 124, 149–150, 200, 254–255  
Biber, D., 223, 226, 239  
bilingualism, students commitment to, 87  
biology, academic writing in, 13–14, 15t, 17–20  
blogs, 257  
BNC (British National Corpus), 229  
BoE (Bank of English) corpus, 229  
British Academic Spoken English (BASE), 98  
British Academic Written English (BAWE), 224  
British National Corpus (BNC), 229  
business communications: academic writing in, 13t, 14t, 15t, 17–21; genre analysis, 123, 136–140  
  
CALPIU (Cultural and Linguistic Practices in the International University), 110  
Cambridge and Nottingham Corpus of Business English (CANBEC), 224  
CANBEC (Cambridge and Nottingham Corpus of Business English), 224  
CDA (critical discourse analysis). *See* critical discourse analysis (CDA)  
centripetal and centrifugal forces in language use, 133  
citation practices by discipline, 7t, 8, 13–14  
classrooms as research site: assessment, 59–62, 63f, 67; CDA and corpus linguistics use, 264–265; input and outputs, 54–56, 65–66; learning objectives, 51–54, 64–65; metacommunications, 57–59; methodologies, 56–59, 66–67; social milieu, 49–51, 62–64. *See also* teachers and teaching  
collocations in corpora, 234, 263  
communicative purposes, 121, 127  
Compleat Lexical Tutor, 264  
ConcGram, 235–238  
concordance use in genre analysis, 263  
consultants for needs analysis, 213–217  
content words in corpora, 230–231  
context: and corpora analysis, 243–244, 263, 272; ESP research on, 28–29, 38–39, 150; and genre analysis, 124–125, 136–140; language and, 26–27; in needs assessment, 201–202; New Rhetoric approach, 131–134; provided by community, 10–11; Sydney School, 126–131

- corpus linguistics: analysis of, 234–238; classroom use, 199–200; compilation, 225–234, 236–238, 260–263; context considerations, 243–244, 263, 272; and critical discourse analysis, 256–257, 262–266; genre analysis, 124, 149, 239–242; limitations of, 256–257; list of, 113; and reading for academic purposes, 264; research needed, 274; research using, 223–225, 257–262; software, 234, 235–238, 239, 245, 259
- Corpus of Professional English, 245
- critical discourse analysis (CDA): corpus linguistics and, 256–257, 262–266; and genre analysis, 151, 255–257; limitations of, 255–256; and reading for academic purposes, 264; research using, 257–262
- Cultural and Linguistic Practices in the International University (CALPIU), 110
- cultural identity: debate about, 74–77; identity construction, 87–90; research on, 78–87
- discourse, academic, 11–12, 271–272
- documentary analysis as research method, 28–29
- Dudley-Evans, T., 120, 125
- EAP (English for Academic Purposes): common core arguments, 9–10; corpora use, 98, 100, 199–200; and discipline specificity knowledge, 22–23; teaching of, 8–10, 48
- EBP (English for Business Purposes), 244
- electrical engineering, academic writing in, 13t, 14, 15t, 17–20
- ELF (English as lingua franca): about, 94–95; academic use, 96–100; compared to Standard English, 106–108; ELFA Corpus, 100–108; research about, 95, 109–111; research needed, 111–112
- ELP (English for Legal Purposes), 244–245
- email communication, studies on, 110
- EMP (English for Medical Purposes), 245
- English for Academic Purposes (EAP). *See* EAP (English for Academic Purposes)
- English for Business Purposes (EBP), 244
- English for Legal Purposes (ELP), 244–245
- English for Medical Purposes (EMP), 245
- English for Occupational Purposes (EOP), 244–245
- English for Science and Technology (EST), 199, 245
- Environmental Impact Assessment (EIA) reports as research subject, 225–226, 228–229, 232–234, 236–238, 240–244
- EOP (English for Occupational Purposes), 244–245
- ESP (English for Specific Purposes): compared to other approaches, 134–135; definition, 45; features of, 1, 252–253; genre analysis, 121–125, 136–140, 152–154, 253; research about, 1–3, 28–29, 45; research needed, 62–68, 274; student use of, 124. *See also* teachers and teaching
- EST (English for Science and Technology), 199, 245
- ethnic affiliation and language development, 80–83
- ethnography: and corpus linguistics, 263; New Rhetoric approach, 132; researchers role in, 188–191; research methods, 28, 38–39, 174–179, 204–205; thick description in, 179–188, 273
- explicitation, 103–106
- Fairclough, N., 255, 258
- field as register, 126
- first language attrition, 84–85
- frequency in corpus analysis, 234, 236–238
- genre analysis: about, 120, 125, 146; of business communications, 123, 136–140; concordance use, 263; ESP approach, 121–125, 152–154; of grant award abstracts, 154–169; historical perspective, 146–152; moves and steps, 121–122, 148–149, 158–160, 239–242; multiple modes, 150–151; New Rhetoric approach, 131–134; of news media, 26, 29–30, 33–37, 257–262; realization patterns, 123–124; registers, 126–127, 146–147; of research articles, 7–16, 121–122, 153; research needed, 169; Sydney School approach, 126–131
- Genre Analysis* (Swales), 148, 200

- genre of power: and critical discourse analysis, 255–257; ESP approach, 253; news media research study, 257–262; research needed, 253–255; using CDA and corpus linguistics, 262–266
- grant abstracts, analysis of, 154–169
- Halliday, M., 126–128, 234
- hedges in academic writing, 7t, 8, 14–15
- Hong Kong Corpus of Spoken Business English, 224
- Hong Kong Corpus of the English of Computing Science, 227
- Hutchinson, T., 46–47, 200
- Hyland, K., 149, 152, 158, 200, 202, 253
- ICLE (International Corpus of Learner English), 102
- ideational purposes, 126
- identity, personal: construction of, 74, 87–90; and genre analysis, 152; language abilities and, 80–87; and needs analysis, 87–90; suppressed in educational settings, 179–191; as writers, 178–179
- inputs and outputs in teaching, 54–56, 63f, 65–66
- International Corpus of Learner English (ICLE), 102
- interpersonal purposes, 126
- intertextual relationships research, 200, 254–255
- JDEST (Jiaotong Daxue English for Science and Technology) corpus, 230
- Johns, A.M., 10, 131, 134, 150, 211–213
- keywords in corpus analysis, 234, 236–238, 242, 260–262
- Lancaster-Oslo-Bergen (LOB) Corpus, 227
- language and context specificity, 46–47, 63f
- language policy, 109
- learner-centered approach, 46–47
- learning objectives in teaching, 51–54, 63f, 64–65
- lexical bundles: about, 6, 16, 223; by academic discipline, 17–18; categories, 223; corpus analysis, 234; functions, 18–21; and L2 students, 16–17
- Limpopo, University of, 206–210, 213–216
- lingua franca. *See* ELF (English as lingua franca)
- LOB (Lancaster-Oslo-Bergen) Corpus, 227
- loss of first language, 84–85
- macro-genres, 127
- mechanical engineering, academic writing in, 13t, 14t, 15t
- media and genre analysis, 26, 29–30, 257–262
- metacommunication in ESP classroom, 57–59
- metadiscourse as speech pattern, 104–105
- methodologies in teaching, 56–59, 63f, 66–67
- MICASE (Michigan Corpus of Academic Spoken English), 98, 100, 101, 229
- MICUSP (Michigan Corpus of Upper-level Student Papers), 224
- MI-Score, 234
- moves and steps in genre analysis, 121–122, 148–149, 158–160, 239–242
- multiple modes in genre analysis, 150–151
- National Science Foundation (NSF) abstracts, 154–169
- needs assessment: about, 73–74; consultants, 213–217; criticism of, 203; history, 198–204; and learner identity, 78–90; research on, 198–204, 206–216
- negotiating topics as speech pattern, 103–104
- New Rhetoric approach to genre analysis, 131–140, 253
- news media and genre analysis, 26, 29–30, 257–262
- Paltridge, B., 125, 127
- participant-oriented word bundles, 19, 21
- passive voice in academic writing, 16, 147, 199
- Pennycook, A., 253, 254, 256
- PERC (Professional English Research Consortium), 245
- personal identity. *See* identity, personal
- philosophy, academic writing in, 13t, 14, 15t
- physics, academic writing in, 13t, 14t, 15t
- power relationships, effects of, 177–188, 257–262
- Problem-Solution (P-S) patterns, 224–225, 235–238, 240–242

- Professional English Research Consortium (PERC), 245
- proportionality in corpora, 228–229
- realization patterns in genre analysis, 123–124
- registers in genre analysis, 126–127, 146–147
- relational process, 126
- rephrasing as speech pattern, 105–106
- representativeness in corpora, 228, 256
- research articles: citation practices, 7t, 8, 13–14; features of, 7–8; genre analysis, 121–122, 153; hedges in, 7t, 8, 14–15; passive voice, 16, 147, 199; self-mention, 7t, 8, 15–16; teaching with, 51–56; transitions use, 7t, 8; verb use, 14
- researchers: objectivity of, 212–213, 215, 216–217; power of, 178–179; roles in ethnographic research, 188–191, 205
- research-oriented word bundles, 18–21
- scaffolding, 130
- self-mention in academic writing, 7t, 8, 15–16
- SELF (Studying in English as a Lingua Franca), 109
- Sinclair, J.McH., 227–228, 234
